Product information

David Lackner - 2022-07-06 - Working with Aqipa - Existing customers

If you are looking for product information such as descriptions, pictures and dimensions and want to download the specifications as a PDF, you can them directly in our store. Registered customers can simply search for the corresponding product (preferably with the item number in the search line - you can also enter several item numbers at the same time) and download all pictures at once (in different resolutions). You can download a product summary in PDF format under "DATA SHEET". Under "SPECIFICATIONS", you can find weight, dimensions etc. Under "DOWNLOADS", you can download additional files such as manuals etc. if available.
