Import cart

David Lackner - 2022-07-06 - Working with Aqipa - Existing customers

To import a shopping cart, simply click on this symbol (top right) next to the shopping cart and then "IMPORT SHOPPING CART". Click the green "SELECT FILE" button and select a suitable .csv file that does not exceed 10 kb. Furthermore, the file should contain the product SKU and the product quantity exactly in this order. Click the green "IMPORT" button. Now you can retrieve your saved shopping cart.

Import Saved Cart

The imported file will be used to create a saved cart.

The text file should list the product SKUs and quantities in the following format:

- SKU, Quantity
- Maximum file size: 10.00 KB

Select a file to upload. The file must be a text file with extension CSV.

CHOOSE FILE

IMPORT

In the blue box, there is a link to the imported, saved shopping cart. Alternatively, you can click on "MY ACCOUNT" above the shopping cart and on the menu item "SAVED SHOPPING CARTS" to go to your imported cart. You can now restore your shopping cart so that your current one updates to the saved one.

Saved Carts
